It is pointed out that entire accord exists between France and the United States, and that when France is ready to move it will be with the full knowledge and approval of Washington. The officials, however, decline to discuss the eventual intentions of the French Government.

the eventual intentions of the French Government.

The reports circulated to the effect that a blockade has been ordered are evidently founded on the statement received from Embassador Jusserand that the United States will not oppose a naval demonstration, coupled with the dispatch from Port of Spain saying that the Desaix and the Jurien de La Gravier had left there for unknown destination.

The Foreign office has received confirmation of the press report that the dean of the diplomatic corps and other Ministers at Caracas have unsuccessfully demanded explanations from the Venezuelan Government with reference to their position after the Talgny incident.

BURGLARS NABBED BY DETECTIVES

Caught in Act of Looting J. D. Wood's Residence on Brigham Street.

SMALL BOY FURNISHES TIMELY TIP TO OFFICERS

Detective Chase Fired Shot at Fleeing Burglars and Captures His Man.

A small boy and two detectives accorplished a good night's work Tuesday detecting three burglars in the act of looting the residence of J. D. Wood, 505 Brigham street, and capturing two of the men after a lively chase The men were arrested by Detectives Chase and Burt and booked at the station on a charge of attempted burglary within two hours after they had landed in Salt Lake Boy Gives Officers a Tip.

A small boy ran into the station about 30 o'clock and told the desk sergeant 9:30 o'clock and told the desk sergeant that he had seen three men in front of the Wood residence acting and talking in a suspicious manner. Without a moment's delay Detectives Chase and Burt started for the place mentioned and as they walked to the rear of the handsome home they beheld three men at work on a rear window with a jimmy. Chase's revolver proved to one of the fellows that it would be safer to stand still and he was captured by Burt. The other two separated, one going over the wall in the rear of the house and the other starting for the car barns as fast as he could go.

Corners His Man.

Leaving Burt to guard the man captured and to catch the other fellow if possible. Chase started toward the fleeting burglar. He was seen to enter the lot back of the car barn, and knowing that he couldn't get out except by returning the way he entered, the officer felt at e of his man. Finally he was discovered back of a large pole, and as Chase came up he stepped out and asked what all of the trouble was about. The trip to the station was his only answer, and a moment later Burt arrived with the other man.

Both Are Young Offenders.

Both Are Young Offenders.

George Young, 17, and Frank Morris, 29, were the names and ages given to the deak sergeant. Both are young in years, if not in crime, but the officers are satisfied that both men are older than the ages given. A moment after Burthad captured his man a number of passers-by came along, and in attempting to get some one to hold the prisoner while he gave chase to the other man, the detective found out how much sand the average citizen possesses. Not a man in the crowd would stand guard over the prisoner, even after the officer had offered the use of his trusty six-shooter for protection. Finally Dr. Wilcox arrived and volunteered to hold the burglar but by that time the third man could have been a mile away.

Did Not Enter the House.

The burghars had not obtained an erance to the residence, but evidence The burgins had not obtained an eptrance to the residence, but evidence of their work in removing or raising the window is to be had. A partial description of the man who got away is in the hands of the police, and it is possible that he will be rounded up by morning. The capture is certainly a good one, and in case the men are members of the gang that has been operating here this winter, their capture should be the means of putting a stop to some of the many cases of housebreaking reported. If the men were armed they succeeded in dropping their guns, as none was found in their clothes when searched at the station just before they were assigned to bunks in the city bastile.

The boy who reported the men's presence in the vicinity of the Wood residence, and indirectly gave information which led to their capture, left the station without giving his name.

Family Away in Europe.

Family Away in Europe. Family Away in Europe.

Mr. and Mrs. Wood are in Europe, and their beautiful residence has been closed for some time. Had the men gained an entrance to it without being detected, they would have had ample time to loot every room and carry away much of value. It was practically an accident that the men were discovered, but the timely arrival of the boy, who used his eyes and ears to good advantage, was the means of saving whatever valuables were in the house, as well as bringing about the capture of two burglars.

It is Different Now.

It Is Different Now

When ex-Chief Lynch turned the keys of his office over to Sergt. Hempel, without even waiting to hand them to the new Chief, crime was rampant in the city. Burglaries and hold-ups were of nightly occurrence. The city was full of vagrants and boosters and the gambling houses and sure-thing men were working night and day.

Sheets Brings a Change. Sheets Brings a Change.

When George Sheets stepped in there was a change. Every officer in the department knew that he must do his duty Gambling stopped. Boosters and vagrants left town by the hundreds, and those who didn't go or mend their ways found a place on the rock pile. Hold-ups and burgiaries ceased, practically speaking, and dozens of low dives were cleaned and renovated as they had not been cleaned and renovated for years. In short, Chief Sheets, his sergeants, patrolmen and detectives left no stone unturned to wine out crime, and they are doing it well.

LEGISLATURE IS EXPECTED TO CREATE COMMISSION

City Is American, but State Is Not: Hope of the Plotters.

How to take the police department away from the American party is the problem which is now worrying many of the defeated politicians of the hierarch, who gnash their teeth with rage as they watch the Americanizing of the law and order division of the municipal govern-ment.

Working Deep Scheme

And in this direction there is a deep laid scheme on foot. The first inkling of it crept out in the refusal of a large number of members of the department who were removed by Chief Sheets to resign when requested to do so. They wanted the record to show that they went out under protest, in order that sympathy might be created in furtherance of the movement.

Realizing that Sult Lake will remain an American city for an indefinite period the Healizing that Sail Lake will remain an American city for an indefinite period the plan is now to get the next Legislature, which, according to the statements of one of the men behind the game, "will not be American," to pass an act taking the appointing and removing power out of the hands of the Chief and Mayor.

Have Commission to Do Business.

It is proposed, according to what can be learned of the movement at this early date, a movement that is being conducted with the utmost secreey, to have this power places in the hands of a commission to be appointed by the Governor. This method, the disappointed feet, will again place them in power and incidentally remove all good Americans from the department.

TO MEET ON MAT

Tom Gleason and Mike Yokel to Wrestle Tonight at Ogden.

Tem Glemon of Salt Lake and Mike Yokel, "The Pride of Ogden," will meet tonight on the mat in the Grand opera-house in the Junction City. They will contest for a purse of \$200, offered by Manager R. A. Grant of the opera-house. The money will be divided 60 per cent to the winner and 40 per cent to the lises.

the lose. Considerable rivalry exists between Gisason and Yokel and there is every probability that each of them will leave no stone unturned in his effort to gain three out of five falls from the other. Glezzon has just as many ardent admirers in Selt Lake as has Yokel in Ogden and it is likely that there will be a great crowd of lovers of the sport in attendance upon the bout. The Ogdenites are betting to 60 on their favorite, and Glesson supporters declare that the Sait Lake wrestler's friends will be spending Ogden money for some time to come, after the bout tunight.

Mr. Robinson has never visited Sait Lake City prior to Tuesday, and greatly regretted the fact that he could not take more time than that allowed between trains in looking over this city. He, however took a walk around the down town section of the city. He declared that Sait Lake is an ideal city, and that the surrounding mountains add greatly to its beauty. He commented upon the fact that electric poles are located in the center of the streets, and said that, although it is much better to have them underground, the present system is infinitely superior to the plan of permitting the erection of poles on the pavement near the curb. He expressed a desire to see Sait Lake in the summer, and declared that he would avail himself of the privilege at the first opportunity. Jrd. UNITED STATES TAKING PART Embassador White Is Making Influ-

ence Felt in a Quiet Way. ALGEZIRAS, Jan. 24 - Henry White, American Embassador to Italy and head of the American delegation to the Moroccan conference, is making the weight of the United States felt in quiet endeavors to bring France and Germany nearer together before the disputed questions arise in the conference. These questions cannot be long delayed, as the consideration of commin and financial reforms in Morocco will begin next week.

It has been impossible for the United States to take the lead in recking a way toward an agreement that shall guarantee to all countries an equal footing in Morocco and yet recognize in some respects the special position of France. It is a difficult task but all the Governments expect those directly concerned are assisting in it because of the danger of the situation should the conference fail of settlement. Trying for Compromise. Great Britain is setting entirely with France and it is not disposed now to ask France to modify her views. Italy, however as the ally of Germany and the friend of France and Russia as the ally of France and the friend of Germany, are trying to effect a compromise.

The most spectacular feature of the day was the official reception of the Spanish Minister for Foreign affairs, the Duke of Aimedovar, in honor of the delegates, affording for the first time an opportunity for the representatives of the many nations to assemble in the georgeous uniforms of their high diplomatic, military and naval ranks. Amendments Are Defeated.

The limitation of the salaries of Commissioners was offered by Mr. Fitzgerald of New York and accepted by the commistee. Mr. De Armond of Missouri of fered a number of amendments which had as their object the requiring of European competition in the purchase of canal supplies. Each amendment went out by Republican votes on the statement of Mr. Tawney, chairman of the Appropriations committee, that this competition was secured now and without the expense of maintaining purchasing agents and advertising in Europe.

Bids of European manufacturers, he said, were accepted now, and these manufacturers had their agents in American cities and were kept in touch with the demands of the commission.

Scene Is Very Gay.

The scene was rendered more gay by the idenumer sunshine, flowers and orange and mond frees in full bloom. The Duke of Almodover, standing at the foot of an improvised throne and surrounded by an imposing staff of officers, received in the name of King Alfonso the delegations, who presented the greetings of their Governments to the King.

During the afterneon the Minister of State received the delegations on board the armored crulser Emperor Charles V.

WASHINGTON, Jan 25.—The eighthour law cannot be abrogated for work on the Panama canal, and Canal Commissioners cannot receive additional compensation besides their salaries as Commissioners. These two changes in the urgent dedicincy appropriation bill, now under consideration by the House, were the net result of yesterday's session Innumerable amendments seeking to perfect the bill as to canal purchases, purchases of coal for the navy, etc., consumed time in discussion, but met defeat when a vote was taken.

Secured Without Discussion.

When the session ended about half of the bill had been considered. It will be laid aside tomorrow, when the Statehood bill is to be brought in and to have the right of way until disposed of. The two amendments which prevailed in the bill were secured without discussion. The eight-hour-day provision went out on a point of order as "new legislation," made by Mr. Williams, the minority leader, man, in the chair.
